

# Solar

**IS NOW INCLUDED!**

Every Fairmont First home now includes Solar.

**Fairmont***first*

# At Fairmont First, we're committed to building homes for South Australian's that are smarter, more sustainable, and future-ready for the next generation.

From 1 June 2024, we're partnering with leading solar provider, Solar Power Direct, to bring all our customers a more energy efficient home.

We're including Solar on every Fairmont First home at **NO EXTRA COST!**\*

Every Fairmont home will now include:

- *3.32kW Solar System with a GoodWe 2.5kWXS+ Inverter.*
- *Energy App to track electricity generation in real-time directly from your phone or tablet.*

Your solar panels and inverter system will be installed during your build, so you'll have access to clean, renewable energy from the moment you move in.

As electricity prices soar, there's never been a better time to build with Fairmont First and start reducing your household power bills!

To find out more visit [fairmontfirst.com.au](https://fairmontfirst.com.au)

*Enjoy solar and save thousands on your power bills!*
